CONFIDENTIAL & URGENT

Dear Mr. Commissioner,

Your department has undoubtedly been made aware of publicity issued from time to time by a group calling itself the North American Labor Party.

I understand that this group operates under different names such as the United States Labor Party, International Caucus of Labor etc. I am enclosing a typical flyer issued by the group in early September followed by similar ones to the same effect in which prominent Canadians are being libeled to the point where there exists a real danger that the certain elements may be stirred up to the point where physical violence may occur to the individuals named therein.

My concern is such that I have had occasion, during the previous months to communicate directly with the R.C.M.P. Security Service in Montreal and more particular, Sgt. Richard Neal, in order that a proper evaluation of the problem be brought to the competent authorities.

My last meeting with Sgt. Neal was for the specific purpose of calling attention to a book entitled DOPE, INC., Britain's Opium War Against the United States, which is a publication put out by the United States Labor Party.

This book is composed of scurrilous libels against members of the Royal Family, British aristocracy - (Winston Churchill, Sir William Stephenson, Lord Beaverbrook, Lord Caccia, Sir Mark Turner, Lord Trevelyan, etc.) as well as important international personalities - (the Kennedys, Bronfmans, Rothschilds, Rockefellers, etc.) and heads of major British and Canadian Banks and Corporations accused of financing and running the Narcotics business in North America. This wild publication was preceded by a series of propaganda flyers beginning the last week of August 1978 in which the Queen, 14 prominent Canadians, Knights or Officers of the Order of St. John and the R.C.M.P. were accused of complicity in assassination plots. The emphasis in the book has switched from assassination to dope.
